

CM/RM Series

Premium Version now available

Thermal printer mechanisms
60 mm

The proven choice for a heavy duty & reliable printer that will last for years

● Overall Performance

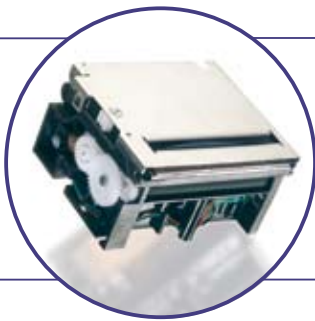

With years of printing technology experience, Axiohm presents a Premium version of the long time customer favorite CM/RM Series that offers even more outstanding features: ultra silent, top printing speed up to 250 mm/s, long life auto cutter (1 Million cuts) with both full and partial cuts, optimized printing quality (resolution of 8 dots/mm). With its newly extended 56 mm printing width, the Premium version of this 60 mm mechanism was designed to maximize printing space, making it a cost effective and paper saving solution.

● Robustness and Versatility

Commonly used in transportation, where harsh operating conditions apply, the CM/RM series has proven its robustness through out the years. Based on enhanced technologies, the newly launched Premium version of the mechanism features top of the range reliability with a mechanical life expectancy up to 100 km. Available in both 12V & 24V versions, the CM/RM is suitable for a variety of applications. A version of the series is even dedicated to printing on thick paper (up to 190µm): The perfect match for pre-paid phone cards, loyalty cards, contactless / RFID cards printing.

● Compact and easy to integrate

With a frame moulded close around the printhead, the CM/RM series has the crucial advantage of being compact, providing maximum flexibility in the integration process. Designed with a single flex connection for plug and play, the RM version features an incorporated reliable cutter into the flat hinged cover. It is therefore an excellent solution for wall embedded applications, saving valuable engineering work and time.

CM/RM Series

Premium Version now available

Thermal printer mechanisms - 60 mm

Characteristics	Unit	Standard Version		Premium Version	
		CM / RM 12 Volt	CM / RM 24 Volt	CM / RM Premium 12 Volt	CM / RM Premium 24 Volt

Other AXIOHM's products

Thermal Printers

Axiohm's thermal printers are based upon the most advanced technology in thermal printing, delivering sharp, clear print with high speed, low noise and outstanding reliability. Our thermal printer line offers state-of-the-art capabilities, numerous interfaces, drivers, accessories and are all Clamshell™ designed.

Turnkey Printing Solutions

Axiohm's kiosk printers are primarily designed for unattended self service terminals but can be used for almost any printing application that requires an easy-to-integrate 'plug&play' printer.

Controller Boards

Axiohm offers an extensive range of controller boards with embedded firmware to manage its full line of thermal printer mechanisms. The controller boards' features have been designed to meet your needs in terms of functionality and competitiveness.
